

## **Warehouse Management EXPO**

Doing more with less. In today's economic environment this is critical to your success. On the one hand, you want your company to grow. On the other, the demand to reduce costs is a continuous on-going battle. You have to find ways to do both. Of course, developing a cost-reduction strategy that maximizes efficiency without compromising growth potential is a difficult proposition.

At the Warehouse Management EXPO we have gathered experts that can help you identify core competencies where efficiency can be improved, trim and consolidate non-core functions, minimize risk, and reinvest the savings in critical business assets.

Knowledge is the key. Walk the Solution Center Area, or sit in on one of the many Workshops to educate yourself on the latest strategies and tools that can assist you in managing and growing your business.

**When:** Thursday, September 11th, 2008

**Time:** 8:00 am to 1:00 pm
